Opolis - Sonal Sancheti and Rahul Gore

**A&i Exhibition Section VII:
Recreation and Community
Design.**

Panel material and size:

Foam Sheet Panel.
3'x 8' Single Panel.

Recall feature:

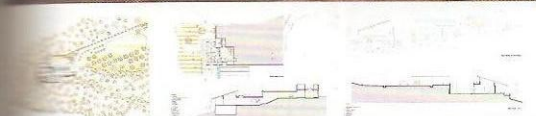

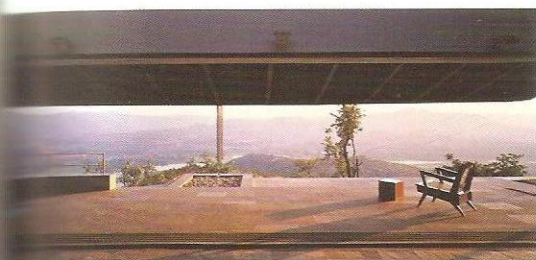

The panel's ability to talk not through text- which is at a minimum- but through the photos is a feature that instantly allows the viewer to linger and gaze.

Winning moment:

Sweeping angles of the images and a very west-inspired love of light, bright-meets-pastel, and obvious lean towards minimalism- this is a panel that faithfully reflects the philosophy that the firm abides by.
